Chester T. Fernando, Governor
Pueblo of Laguna
P.O. Box 194
Laguna, New Mexico 87026

Dear Governor Fernando:

During the design and review stage for the State Road 279 project, it was expressed by the Pueblo of Laguna representatives that waste from inside the project boundaries within the Jackpile lease area could be removed by the Pueblo. In the enclosed August 8, 1986, letter from the New Mexico State Highway Department, please note their request that the stockpiles be removed prior to October 1986. Sufficient slopes for the waste piles must be maintained for stability. The data on slopes and grades can be obtained from the State technical personnel.

We have been advised by the State Highway Department surveying crew that the staking for the right-of-way is complete. In addition, the centerline of the roadway adjacent to this waste pile has been staked for ready reference. Do not hesitate to contact Dan Carr, Natural Resources Manager, if you have any questions.

Sincerely,

[Signature]
(ACTING) Superintendent
